---

This section has reviewed the above-referenced tentative block plat and hydrology report dated 1/23/07. We have found no objection to their approval subject to the following comments:

1. This project is being comprehensively reviewed by the regional flood control district. Please continue to include this office in the distribution of any required revisions to the drainage report and block plat to aid in the approval of future submittals.

If you wish to discuss the above comments, please contact me at 740-6315.
